

3. Empathy Map

Date	25 June 2026
Team ID	SWTID-2026-4570
Project Name	EduGenie – Google Gemini Powered Learning Assistant
Maximum Marks	4 Marks

Empathy map for EduGenie's primary persona — a self-directed student — built from the problem statements above.

SAYS	THINKS
• “I don't have time to read a whole chapter for one concept.” • “I need this explained more simply.” • “I want to test myself before the real exam.”	• “Am I actually understanding this, or just memorizing it?” • “Is there a faster way to learn this topic?” • “I wish I had a personal tutor available any time.”
PERSONA: “Ananya” — Undergraduate Student / Self-Directed Learner	
DOES • Searches Google / YouTube for explanations of confusing topics • Rewrites lecture notes by hand to create a personal summary • Asks classmates or online forums to test them with quiz-style questions	FEELS • Anxious in the days before an exam • Overwhelmed by unstructured, lengthy material • Relieved and confident once a concept finally “clicks”
